PROVIDENT HEALTHCARE PARTNERS ADVISES BOSTON LASER, EYE & LASIK CENTER, AND EYE CARE SPECIALISTS

Boston Eye Group, The Eye & LASIK Center, and Eye Care Specialists have completed a recapitalization with an undisclosed investor. These three companies each provide comprehensive ophthalmic care for communities across Massachusetts. Boston Eye Group, founded in 2000 and operating under the brand names Boston Eye Group and Boston Laser, operates four primary locations in Massachusetts. The Eye & LASIK Center has been serving Franklin County for 50 years, now through eight locations. Eye Care Specialists has three locations, all of which are strategically located in close proximity to its referring hospitals. Collectively, the organizations employ over 30 doctors across 15 locations. [Provident Healthcare Partners](#) (“Provident”) served as exclusive financial advisor to Boston Eye Group, The Eye & LASIK Center, and Eye Care Specialists. The terms of the transaction were not disclosed.

“Massachusetts is a very fragmented market for eye care services, and the recapitalizations of these three practices provides a great opportunity to create a leading ophthalmology provider spanning from Boston to Western Massachusetts,” commented Eric Major, Vice President at Provident.

“Each of these three practices has an excellent reputation within the communities it serves. We believe these groups have found an excellent partner that will provide them with the resources needed to continue to grow and expand,” added Dustin Thompson, Vice President at Provident.

“We are confident this transaction will give us the resources to build the type of organization currently needed to face the upcoming challenges in eye care. Selecting the ideal financial partner was of utmost importance to us. We are very satisfied with the outcome thanks to the market knowledge, advice, and diligent process put in place by the team at Provident,” noted Dr. Samir Melki, Director at Boston Eye Group.

“Provident is a renowned firm with sophistication and dedication unlike most to help their clients achieve their goals. They are passionate about what they do and only have the highest caliber of experienced staff to work with every facet of your business,” stated Tracy Kenniff, Practice Administrator for the Eye & LASIK Center.
